This is such a cool little project. I Could NEVER understand this game as a kid but now I can't stop playing lol. Don't know if this'll get updated again but id be awesome if there was a way to bet more than five coins.

Discovered this from the Mario V. Luigi Online Discord. This was my favorite minigame so thank you for making this!

I tried to install the app on the new Samsung Galaxy Z Flip 6 but i get the message that the app cant be installed (Android 14, install unknown apps activated, ADB install over USB debugging does not work, changing target SDK to 34 does not work). Can you help here please?

Thank you for this piece of childhood!

This is an issue on Snapdragon 8 Gen 3 devices. This is a 32 bit app, and Qualcomm dropped support for 32 bit apps on that chip.

I've contacted the developer about the issue, and they simply need to build with 64 bit libraries too. Wait for an update, or try another phone.

Was public games ever fixed? Would be pretty cool to give public games a try.

[Reply](#)

 [RiskiVR](#) 143 days ago

yeah absolutely! another client would need to also be searching to connect to them when doing a public match.

I know it's of not much use, but I would love an .ipa version to be able to play on iPhone, also great game.

[Reply](#)

 [RiskiVR](#) 1 year ago

I attempted to export the game as an ipa, however the file size was abnormally large, and so I have no idea if it was safe to ship.

Plus I do not own a modded iPhone to test the application myself.

are there any plans for a macOS release?

[Reply](#)

 [RiskiVR](#) 1 year ago (+1)

Sure, I can build for Mac on next update! I would like to first focus on changing the way multiplayer works.

luigi stole 20 coins from me in the beginning

i stole 2112 back

[Reply](#)

 [miyavmeow](#) 1 year ago

customizable coin amount for lobbies when, it takes a bit of time for people to farm so we can actually play

[Reply](#)

 [RiskiVR](#) 1 year ago

Multiplayer lobby's coin logic will be changed on next update to match the multiplayer from the OG game.
