ABOUT THIS GAME

It was your usual daily life over at hololive HQ in Holo City, until one day their CEO mysteriously disappears!

Moments later, a nefarious organization who called themselves "holoX, the Secret Society" announces their plans to take over the world! Play as the talents of the Vtuber group Hololive to fight your way through the minions of holoX and put a stop to their plans in this classic style beat-em-up!

-Play as different talents of hololive, such as the talents of Generation 5's "NePoLaBo", each equipped with their own unique abilities and super attacks!  
-Find various kinds of equipment that will change the way you play each time!  
-Use quick consumable defensive or offensive items to change the tide of battle  
-Fight action packed boss battles against the members of holoX  
-Up to 4 players local with online in an upcoming update  
-Easy to pick up and get right into the action  
-Challenge harder difficulties that will put your skills to the test!  
-The "X" in the title is silent.

I would say, decent game, coming from someone who is not extremely into hololive or vtubing in general

Despite the fact that this game would raise my blood pressure when BS happens in the game

Overall, still good

This is a very fun little game. It has a lag bug but with a quick googling, easily fixed and the game runs well. I enjoy the game quite a bit. Thank the chad devs for this piece of free entertainment honestly.

Decent game, but kinda short.

cute concept, poor execution.  
the controls are sluggish, the enemies move too quickly, the items are random with stats/abilities, the bosses become immune to damage and do hits you can't avoid, and your abilities take too long to use.

Holocure was a much better game.  
each character in that game had its own special moves that are quick and do not require charging up.

Although this game is very short (unless you go achievement hunting), this is yet another excellent Hololive fan game, and solid beat em up.

There's quite a few characters to choose from, and although some are DEFINITELY stronger than others, I enjoyed playing as all of them. There are also rougelike elements in the equipment you get on each run, as well as coins to spend on upgrading and enhancing that equipment makes the game fairly replayable as well. You can also invest your coins into purchasing various emote stickers, which you also earn from achievements. Although they don't currently serve much of a purpose, it was fun to collect them all and see the various

I'm not a Vtube fan, but this is a great game.  
Holo X Break is a Beat 'em up game. You play as one of 4 Vtubers and stop the secret society holoX from taking over the world. Every time you defeat a boss, you unlock a new character. Overall, the game is fun and challenging.

It's a fun beat-em-up game. This game appeals mostly to Hololive fans. If you're not a Hololive fan, then the game is pretty average. It's still a high-quality game for free, though.

A decent game, with nice mechanics, cute graphics and interesting gameplay.  
It takes some learning but is quite fun.

Unfortunately, I'm just bad at the game but that's a problem with me and not the game.

POSTED: AUGUST 31

The last boss is designed around either a good build (that you won't have the first playthrough) or stacking op consumables and doing fast dps before she can spam her special move (this last boss has more HP than the other 4 bosses combined). Normal strat won't work because the boss has "touhou syndrome" and spams projectiles non-stop and also has help from goons.

What does this mean?, it means that you'll die and go back 3 screens so you can grind more levels and upgrades until you brute force your way to victory, which is a terrible design for a "beat'em up".
