Riki.

- Changed special forward + A;
- New Blitz attack (forward forward + B), now it's like in the original game River City Girls;
- B + C hit calibrated, hitboxes tuned, damage reduced, in general it became much better;

Developer's comment - It was rather inconvenient to play for Ricky, blitz attack is difficult to hit, forward + A is everyone interrupts. Now he is like all other characters in gameplay, you should not be afraid of an accidental flight to heaven when trying to take a chicken.

V.v0.9.82. Changelog:

- Added Mana System by Dha Lau Hoo
- The player can gain MP by hitting the enemies: Each hit will increase MP by 1.
- Throwing an enemy will increase MP by 2. Piledriver (Riki only) will increase MP by 3.
- Offensive special attacks do not increase SP.
- The maximum value of MP is 100.
- Player can perform offensive special attack by pressing forward and A only if he have 20 MP.
- Tea and coffee help the player to recover MP. A cup increases player MP by 10. A pot increases player MP by 20.

Have fun!
