Description:

Teenage Mutant Ninja Turtles: Shredder's Re-Reveng: [Gameplay Trailer](#)

I. Overview:

Welcome to the universe of Teenage Mutant Ninja Turtles: The Re-revenge of the Shredder! The city was attacked by a foot ninja army led by Shredder and Krang. Our brave heroes have come together to challenge them and clear the city of evil mutants and foot ninja. But will it be that easy?

II. Features:

- Replaced all characters, all enemies and all bosses.
- Added shadow for all characters, all enemies and all bosses.
- Some enemies have new attacks, that will surprise experienced players.
- Characters replaced by Raph, Leo, Donnie, Mikey, April O'Neil, Splinter and Casey Jones.
- All seven playable characters can jump further while running
- All of the characters attacks are similar to those from TMNT: Shredder's Revenge.
- The game has juggling for both players and enemies.
- Players can recover from a hit by pressing the jump button upon landing (as in SOR4)
- The command to run (f, f) becomes more sensitive.
- All playable characters can jump further while running.
- You can use the Offensive Special while running
- Added 6-Button gamepad Support. Uppercut now is Y-button.
- Friendly fire is disabled.
- Added new sounds for players and enemies.
- A new plot has been written for the game.
- Changed the title screen
- Changed all Story Screen in the game
- For the first time in sor2 hacking, switching between normal and turbo mode has been added to the option
- Added turbo mode

III. More about turbo mode.

This option is responsible for the delay between strikes when attacking enemies.

- Off - For SOR2 fans
- On - For all those who like more dynamic games

IV.1.01

Fixed a bug causing a freeze when receiving an Electrolyte attack from the Whip Foot Ninja on some emulators and consoles on hardest and mania difficulties.

VI. Other:

- Thanks to gsaurus, for helping and working with AI enemies.
- Thanks to eskayelle, the person who wrote a new story.
- Gigantic Special Thanks, to a person without whom nothing would be - PPI_Akiko. It was he who added Juggling, New Running, new hitting physics and was invaluable in helping this project work
